

THE NEW ERA OF JOLLYBOX®

La nuova era di JOLLYBOX®

GUGLIELMI

MADE IN ITALY

Un nuovo approccio verso i progetti.
L'innovazione tecnologica nei sistemi da incasso.

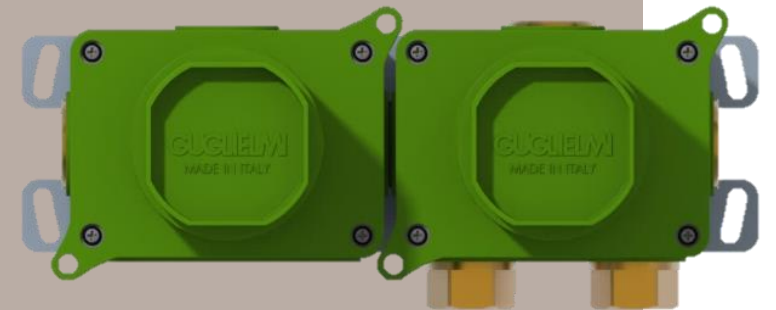

**A new of thinking about projects.
The technological evolution of built-in systems.**

a REVOLUTION in the world of contract

JollyBox® is the innovative portfolio of universal wall-mounted systems conceived and designed entirely in Italy, to meet everyday needs of architects and engineers in contract and private projects.

JollyBox® products represent a new frontier in the world of interior design. The choice of the aesthetic part of the mixer is unrelated to the choice of the concealed part. The concealed parts are compatible with all Guglielmi mixers.

**UNA RIVOLUZIONE
NEL MONDO
CONTRACT**

JollyBox® è l'innovativa famiglia di sistemi universali da incasso pensati e progettati completamente in Italia, per soddisfare le esigenze quotidiane di architetti e ingegneri in progetti contract e privati.

I prodotti JollyBox® rappresentano una nuova frontiera nel mondo dell'interior design. La scelta della parte estetica della rubinetteria si slega dalla scelta della parte incasso. Le parti incasso sono compatibili con tutti i miscelatori Guglielmi.

Assoluta compatibilità

ABSOLUTE COMPATIBILITY

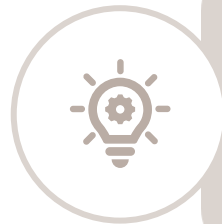

INNOVATION

INNOVAZIONE realizzata in Italia

GUGLIELMI

MADE IN ITALY

We thought about it for a long time, but it was worth the wait. JollyBox is the result of a careful market analysis carried out with the aim of offering a safe and functional product.

Ci abbiamo pensato a lungo ma ne è valsa l'attesa. JollyBox è frutto di un'attenta analisi di mercato realizzata con l'obiettivo di offrire un prodotto sicuro e funzionale.

Your time is precious, don't waste it. Choose the built-in part that best suits your needs and later choose the faucets that you prefer. JollyBox is compatible with all Guglielmi products.

Il vostro tempo è prezioso, non sprecatelo. Scegli l'incasso più idoneo alle tue esigenze e in un secondo momento sceglierai il miscelatore che preferisci. JollyBox è compatibile con tutti i miscelatori Guglielmi.

Something NEW on the market. The high compatibility of JollyBox products allows for shorter selection times of articles and finishes as well as greater efficiency during installation.

Qualcosa di NUOVO sul mercato. L'elevata compatibilità dei prodotti JollyBox permette di ridurre i tempi di selezione di articoli e finiture e maggiore efficienza nell'installazione.

Trust us, we are specialists. Our built-in parts are individually tested in our factory and, thanks to the watertightness of our plastic boxes, are leak-proof.

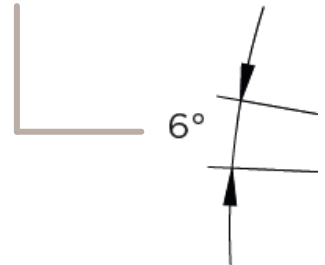

Fidati di noi, siamo specialisti. I nostri incassi sono testati uno ad uno nel nostro stabilimento e grazie alla tenuta stagna delle nostre scatole, sono a prova di perdita.

Incomparable **ADVANTAGES**

VANTAGGI incomparabili

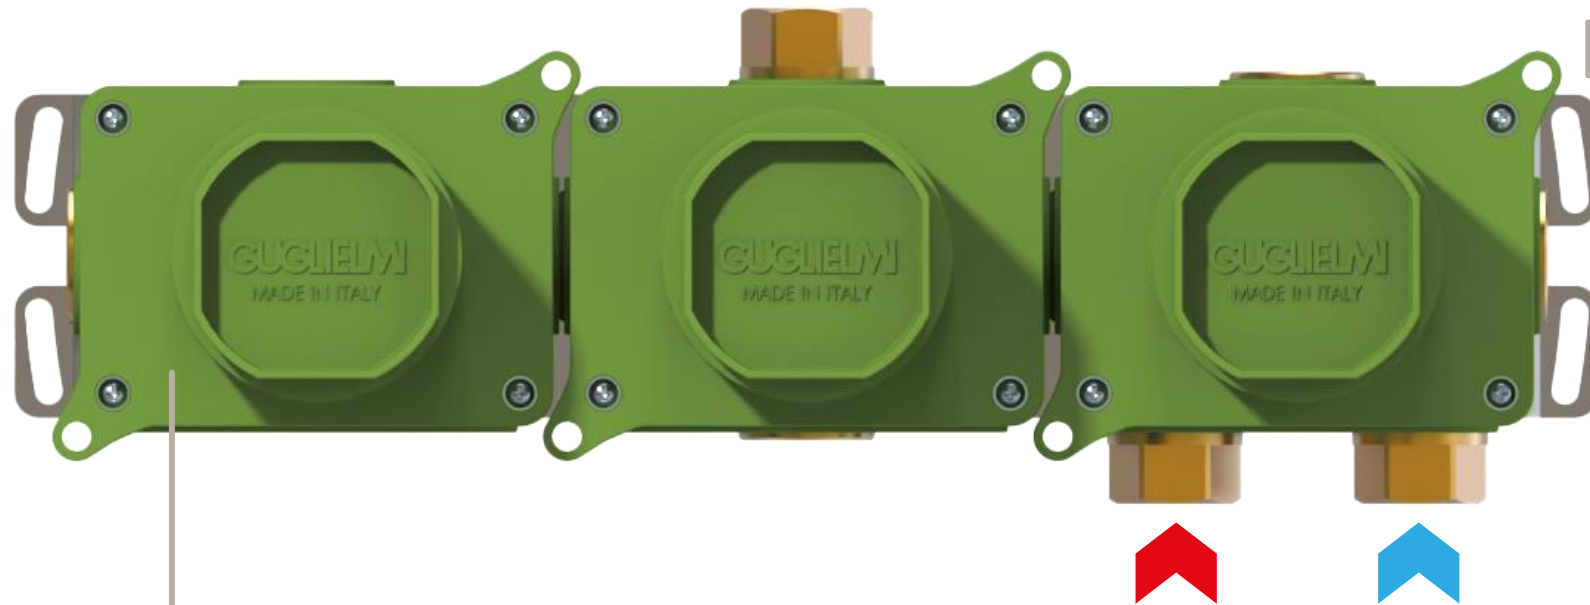

Possibility of adjustment with rotation *up to 6° degrees*

Possibilità di regolazione con rotazione fino a 6° gradi

Stainless steel back plate

Piastra di rinforzo in acciaio inox

PROTECTING CASING
Watertight boxes with square section seals

INVOLUCRO DI PROTEZIONE
Scatole a tenuta stagna con guarnizioni di sezione quadrata

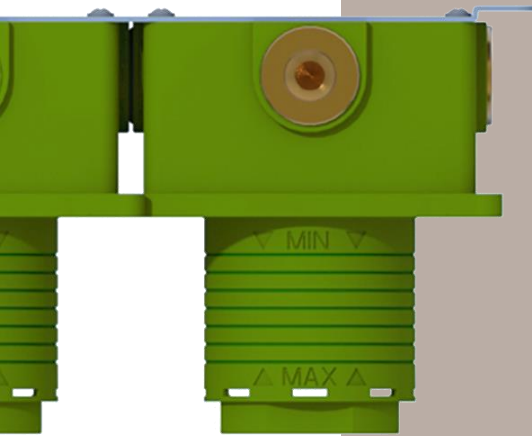

Lower inlet with direct connection hot and cold water

Ingresso acqua inferiore con connessione diretta acqua calda e fredda

TECHNICAL specifications

Specifiche TECNICHE

Tappi per prove di tenuta in pressione. Possibilità di rimuovere i tappi per pulizia impianto

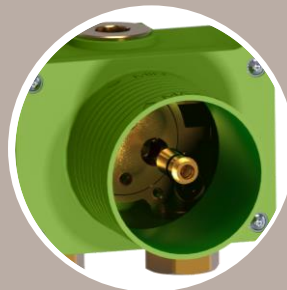

Plugs for pressure tightness testing. Possibility to remove plugs for plant cleaning

Tappo di lavaggio delle singole acque (prova entrambi i flussi)

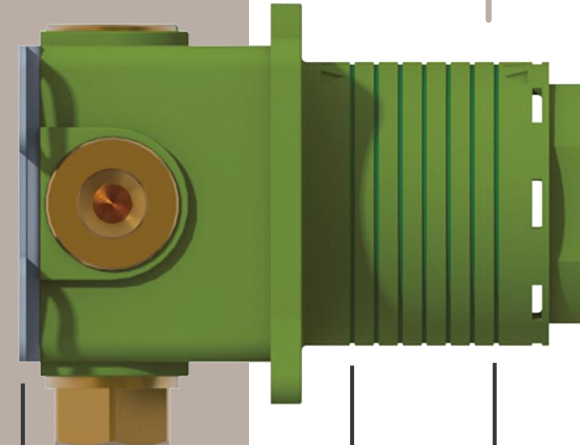

Individual water flush plug (test both streams)

Size among the *smallest* on the market

Dimensioni tra le più compatte del mercato

MIN 69mm

MAX 99mm

MINIMUM INSTALLATION DEPTH

Compact item with installation interval of 30 mm

MINIMA PROFONDITÀ DI INSTALLAZIONE

Articolo compatto con intervallo di installazione di 30 mm

For installation from the front

Per installazione frontale

For installation from the back*

Per installazione posteriore*

Bubble levels can be placed vertically and horizontally thanks to the plain parts available on the outer cylinders, which will then be cut off at the level of the wall covering.

Le livelle a bolla d'aria possono essere posizionate in verticale e in orizzontale grazie alle parti piane disponibili sui cilindri esterni, che verranno poi tagliate al livello del rivestimento della parete.

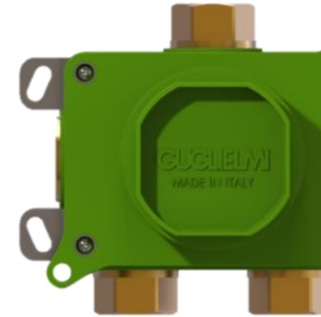

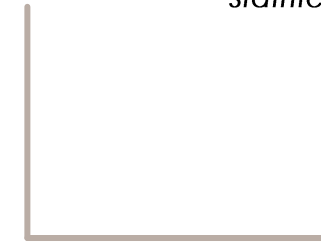

*on plasterboard / su pareti in cartongesso

JollyBox® product range adapts to all various environments. **Brick walls, wood or plasterboard** are all perfect surfaces able to accommodate our products.

Installation can be made from the front or from the back of the built-in parts thanks to the solid stainless-steel back plate.

Pareti in muratura, legno o cartongesso sono tutte superfici perfette per accogliere i prodotti JollyBox®.

L'installazione può essere effettuata dalla parte anteriore o posteriore delle parti ad incasso grazie alla solida piastra in acciaio inox.
