Fortune's 2019 Change the World List: Companies to Watch

By [Matthew Heimer](#) and [Erika Fry](#) August 19, 2019

“Burberry and Prada both recently launched collections featuring ECONYL®, a recycled nylon that this Italian yarn manufacturer creates from old fishing nets, fabric scraps, and discarded carpets. The company claims that for every ton of the upcycled material it produces, it saves 7 barrels of crude oil and 5,7 tons of carbon emissions.”
